

What is a Greenhouse Gas? Carbon dioxide, methane, nitrous oxide. These gases accumulate in our atmosphere and trap heat, causing a greenhouse effect which impacts our environment.

The Threat is Real. Numerous companies realize this threat and are taking action to reduce greenhouse gas emissions. Hundreds of major businesses have voluntarily joined together as a part of USCAP (United States Climate Action Partnership) to address this issue.

Krylon Products Group is doing their part to support USCAP, offering more than 1600 products that are greenhouse gas free. These products deliver excellent performance without using greenhouse gas propellants, and carry no price premium. Horizon Solutions is your source for these products: delivering the same excellent performance, no added cost, and a positive impact on our environment. This flyer highlights 10 of the most popular items in our range of greenhouse gas free products.

Horizon SKU#	Product / Description		Price
SWCTF20027	TRI-FLOW Industrial Lubricant, 12oz aerosol	Preventative and corrective maintainance; micron P.T.F.E. formula	\$7.49
SWCS00710	PDRP Waxy Film Lube, 16oz aerosol	Penetrant/demoistrant/rust preventative; outdoor use	\$2.99
SWCS00206	All-Purpose Silicone Lube, 16oz aerosol	Compatible with most surfaces; will not attack most plastics	\$2.99
SWCS00210	Food-Grade Silicone Lube, 16oz aerosol	Colorless, odorless; NSF reg. no. 115089; H1 rated	\$2.99
Great for machining and metalworking....			
SWCS00603	Blue Layout Fluid, 16oz aerosol	Fast-drying; non-flaking; heat resistant; non-corrosive	\$2.99
SWCS00606	Layout Fluid Remover, 16oz aerosol	Leaves no residue; does not contain chlorinated solvents	\$2.99
Must-haves for welding and welders....			
SWCS00739	Silver Galv, 16oz aerosol	excellent ouch-up for repair of gavlinized substrates	\$4.99
